NYU Langone Hospitals
Postdoctoral Dental Residency Program

Orthodontics & Dentofacial Orthopedics (O & DO)

In The Complex World of Modern Dentistry
Experience Matters
MAKE YOURS EXTRAORDINARY

SUPERIOR PREPARATION
This is a 24-month, ADA-CODA accredited hospital based program. Upon successful completion of requirements, residents are awarded a Certificate in Orthodontics and Dentofacial Orthopedics and are eligible to take the American Board of Orthodontics specialty board exam.

Upon graduation, residents will be able to treat a full spectrum of orthodontic conditions in various adolescent and adult populations. Residents will gain proficiency in diagnosis, treatment planning and managing orthopedic conditions using interceptive strategies as well as a variety of fixed and removable appliances. The program emphasizes risk management and clinical ethics related to patient care.

BECOME YOUR EXTRAORDINARY

REAL-LIFE TRAINING
“\[I just got my braces off and it feels great. Every step of the way the attendings and the program director explained everything and made me feel very comfortable. Now, I have confidence in my smile and I am so encouraged to smile more in pictures and when talking to people.\]"

Amir Elsaeidy, age 20, Patient, 2017, Orthodontics
O & DO AT-A-GLANCE

• Strong clinically-based program treating a large and demographically diverse population (80%) and didactic learning (20%).
• Residents work closely with faculty in a clinically intense environment utilizing contemporary appliances and therapeutic treatment modalities as they service a very diverse patient population pool.
• The resident becomes confident in applying evidence-based dentistry to their diagnostic and treatment considerations.
• Residents can expect to conduct diverse procedures, work with specialists in pediatric dentistry, prosthodontics, oral surgery, oral pathology, endodontics, dental anesthesiology, orofacial pain and periodontics.
• Residents also learn techniques to treat patients with special needs and medically complex conditions.
• Residents gain expertise in practice and patient management techniques regarding the science, business and art of orthodontics.
• Attractive and competitive stipend as well as comprehensive fringe benefits are offered.

CONFIDENCE FROM EXPERIENCE

“Residents graduate from our program with significant confidence and skills in Orthodontics. We ensure that they will be able to walk into any situation, any office, recognize what’s going on, and successfully treat the patient – whether it’s a new patient or a transfer patient. We also stress training in the business, the science, and the art of orthodontics. Our graduates become integral members of their communities.”

Laurance Jerrold, DDS, JD, ABO, Chair and Program Director, Orthodontics and Dentofacial Orthopedics, NYU Langone Hospitals
